

Mental Health Outcome Sheet Procedure

1. Scope

Site	Operational Area	Applicable to
Armadale Health Service	Mental Health Services	Medical Clerical

2. Purpose

An Outcome Sheet is a tool used by a medical staff to instruct clerical staff on the required information to outcome a webPAS medical appointment and accurately record Service Events to the Psychiatric Services Online Information System (PSOLIS). The Outcome Sheet design is based on the essential mandatory information that is to be recorded in webPAS and PSOLIS. Use of the Outcome Sheet is consistent with Outpatient Clinic processes at Armadale Hospital where an outcome for each scheduled diary appointment is mandatory.

Outcome Sheets are only used to outcome webPAS medical appointments. Care Coordinators are therefore not required to use Outcome Sheets for their client appointments as these appointments are not entered to webPAS, and the Care Coordinators maintain responsibility for service event entry for these occasions of service into PSOLIS.

3. Procedure

- All medical appointments are scheduled in webPAS against the consumer UMRN by clerical staff.
- Clerical staff will prepare Outcome Sheets daily for the following day's clinics and provide the Outcome Sheet with daily clinic list (printed from webPAS) to the relevant medical practitioner.
- Consumers presenting to the clinic for an appointment will be clerked at the reception area by the Clinic Clerk or via Video-Call. Clerical staff 'arrive' the consumer in webPAS, which feeds into iCM, notifying medical staff and clinician(s) that the consumer is in reception or the Video-Call waiting room.
- At the end of the appointment, medical staff must complete an Outcome Sheet clearly identifying for clerical staff the following:
 - Patient core identifiers (using a patient ID sticker)
 - Appointment Type (Face to Face, Telephone, Video Call, Home Visit, Family Meeting or Clinical Review)
 - Appointment Outcome (Attended, Did Not Attend, Cancelled, Rescheduled)
 - Attending clinicians
 - Any other attending stakeholders such as family members or NGOs
 - Time client departed
 - Next appointment due time frame (or expected Discharge)

- Next appointment type to be booked (Face to Face, Telephone, Video Call, Home Visit, Family Meeting or Clinical Review).
- Medical staff to bring all completed Outcome Sheets to the front Reception area at the end of their clinic and place in the appropriate tray.
- Clerical staff will action all Outcome Sheets daily and record the completion of each action in the Clerical section of the Outcome Sheet by entering their initials as each task is completed.
- At the end of each month, all completed Outcome Sheets and daily diary lists to be sent to Clerical Coordinator / MHIS Coordinator for reporting activities.

4. Roles and responsibilities

Role	Responsibility
Head of Department – Psychiatry	Ensuring compliance of medical staff with the completion of Outcome Sheets.
Clerical Coordinator Mental Health	Ensuring training and compliance of clerical staff with the procedure.
Mental Health Information Systems Coordinator	Reporting on accuracy of data from Outcome Sheet information to PSOLIS.
Clinic Clerk	Ensuring all appointment outcomes are actioned and recorded accurately on the Outcome Sheets, and ensuring these completed Sheets are then sent off to relevant stakeholders for reporting.

5. Legislative context

The following documents are required to give effect to this procedure:

- Health Department of Western Australia (HDWA) [Patient Activity Data Policy](#) MP 0164/21

6. Supporting information

The following documents support the implementation of this procedure:

- [WebPAS PMI Data Entry Standards](#)
- [Non-Admitted Patient Activity Data - Business Rules](#)

7. Compliance, monitoring and evaluation

Monthly webPAS and PSOLIS monitoring of all medical appointment entries to identify timeframes for information entered into the system and completeness of data.

8. Relevant standards

National Safety and Quality Health Service (NSQHS) Standards (second edition):

- Standard 1 – Action 1.16: The health service organisation has healthcare record systems that:
 - Make the healthcare record available to clinicians at the point of care
 - Support the workforce to maintain accurate and complete healthcare records
 - Comply with security and privacy regulations
 - Support systematic audit of clinical information

- Integrate multiple information systems, where they are used.

Standards Australia/New Zealand Standards (AS/NZS):

- AS 2828.2:2019 Health records, Part 2: Digitized health records

9. Policy contact (relating to these procedures)

Service Director Mental Health

Enquiries relating to this procedure may be directed to:

Title: Clerical Coordinator
 Department: Mental Health Service
