

Armada Kalamunda Group

Phlebotomy Service in the Mental Health Inpatient Wards Guideline

1. Purpose

Consumers exhibiting behavioural concerns that pose a risk for Phlebotomy staff, require close liaison between the consumer's clinical team and PathWest to ensure safety for both the consumer and all staff involved.

The purpose of this document is to ensure the safety of staff, consumers and equipment.

This guideline should be read in conjunction with the East Metropolitan Health Service (EMHS) [Patient Identification and Procedure Matching Policy](#)

2. Applicability

This document is applicable to clinical staff working on the Mental Health inpatient wards within the Armada Kalamunda Group and PathWest Laboratory staff.

3. Guidelines

The Armada Health Service Phlebotomist visits the Mental Health inpatient wards Monday to Friday at approximately 0800hrs and 1300hrs and Saturday, Sunday & Public Holiday at 0800hrs.

Any concerns from Phlebotomy staff are to be directed to the Shift Coordinator who consults with the clinical team to generate a management plan for any further instances of phlebotomy.

3.1 Patient identification and documentation for procedures

- For phlebotomy procedures undertaken in mental health inpatient wards, the accompanying nurse is required to confirm the identity of the consumer with the phlebotomist and remain with the consumer throughout the procedure. Please refer to the [AKG Identification of Patients in the Armada Mental Health Service Procedure](#)
- The allocated nurse is required to document the collection of bloods in the health record.

3.2 Staff presence required throughout procedures

- Please refer to the below table:

Ward	Requirement
Banksia Ward	One staff member to be present at all times whilst the Phlebotomist is taking bloody samples

Ward	Requirement
Karri Ward	One staff member to be present at all times whilst the Phlebotomist is taking blood samples
Moodjar	One staff member to be present at all times whilst the Phlebotomist is taking blood samples
Yorgum	Two staff members to be present at all times whilst the Phlebotomist is taking blood samples

3.3 Equipment and location for procedures

Please refer to the below table:

Ward	Requirement
Banksia Ward	Consumers will have bloods taken in their bedroom or the treatment room
Karri Ward	Consumer can have bloods taken in the treatment room or the multi-purpose room adjacent to the staff station. The patient's bedroom can be utilised as required at the nurse's discretion. Alternatively, they can attend the pathology centre in the main hospital if clinically appropriate
Moodjar	A phlebotomy chair is located in the Yorgum visitors' /interview room. The phlebotomy chair is to be placed near the window in the visitors'/interview room to ensure the safety of staff, patients and equipment. The treatment room or patient's bedroom can be utilised as required.
Yorgum	A phlebotomy chair is located in the Yorgum visitors' /interview room. The phlebotomy chair is to be placed near the window in the visitors'/interview room to ensure the safety of staff, patients and equipment. The treatment room or patient's bedroom can be utilised as required.
