

Mental Health Patient Flow – Quick Guide (Acute) Guideline

Preamble

Consumer Participation

The Rockingham Peel Group (RKPG) recognises and fully supports the need for the patient and/or their primary carer to¹:

- Know and exercise their healthcare rights.
- Be engaged in their healthcare.
- Have access to information about treatment options.
- Participate in treatment decisions.
- Have access to information about agreed treatment plans.

Scope of Practice

It is the responsibility of each health care provider to ensure all patient care and therapeutic interventions they provide are within their individual scope of practice. Refer to the [RKPG Guidelines to Writing for Clinical Policy](#) for further information about Scope of Practice.

State Mental Health beds

Health Service	Hospital	Bed Numbers and Types
South Metro	Fremantle (Alma Street Centre)	10 secure beds (W4.1) 38 open beds (W4.2, W5.1) 16 older adult beds (W4.3) 12 beds (HTT)
	Fiona Stanley Hospital	8 short stay beds (MHU A) 8 Mother & Baby Unit beds 14 Youth beds (16yo – 24yo) 8 Youth HITH beds
	Rockingham (Mimidi Park)	4 secure beds 16 open beds 4 secure older adult beds 6 open older adult beds 11 HITH beds
North Metro	Graylands	30 open beds (Dorrington, Casa) 20 secure beds (Ellis, Pinch)
	Joondalup	10 secure beds 37 open beds 10 Short stay beds (MHOA- not authorised)
	Youth HITH	8 beds
	SCGH MHU	10 secure beds (Karangi, Jurabi) 18 open beds (Tanami) 2 swing beds (open/secure) 8 short stay beds (MHOA - not authorised)
	Selby Lodge [older adult]	8 secure older adult beds 24 open older adult beds
	Ursula Frayne (SJOG Mt Lawley) [older adult] – Do not admit out of hours	12 older adult beds
	Osborne Park Lodge [older adult] (not authorised)	24 older adult beds

RESPONSIBILITY				NATIONAL STANDARDS
First Issued	Sep 2019	Revisions	Jul 2022	National Standards 1, 5, 6

Title	Mental Health Patient Flow – Quick Guide (Acute) Guideline			

East Metro	Midland (SJOG)	25 open beds (4a) 15 secure beds (4b) 16 older adult beds (4c)
	Armadale	6 secure beds (Yorgum) 27 open beds (Moodjar, Karri) 8 older adult beds (Banksia)
	Royal Perth Hospital	20 open beds (2K – not authorised) 12 secure beds (MHU) 8 short stay beds (MHEC – not authorised)
	Bentley EMyU (16yo – 24yo)	3 secure beds 9 open beds
	Bentley	12 secure beds (ward 6) 36 open beds (ward 7, ward 8) 26 older adult beds (ward 10)
CAMHS	Perth Children's Hospital	20 beds
WACHS	Bunbury	7 secure beds 23 open beds
	Albany	4 secure beds 12 open beds
	Broome	2 secure beds 11 open beds
	Kalgoorlie	6 open beds

SMHS Mental Health Patient Flow Guidelines and BRAG

- The SMHS Mental Health Patient Flow Management Plan outlines a set of business rules to standardise Mental Health Patient Flow (MHPF) practices and processes across the South Metropolitan Health Service (SMHS). This document will also introduce a mental health (MH) capacity status system referred to as BRAG (Black, Red, Amber, Green).
- Refer to [SMHS Mental Health Patient Flow Management Plan](#)

Prioritisation of Mental Health Patients

- Prioritisation of referrals for admission will be considered on the basis of three factors:
 - * The less contained.
 - * The rural and remote.
 - * High risk environments.
- Any patient whose risk to self or others is high and unable to be managed using other least restrictive options and requires containment will have access to a mental health bed. Other considerations will be escalated to higher priority by agreement between the originating and destination inpatient service Clinical Director/Head of Clinical Service.
- A high acuity patient in an Emergency Department (ED) or Mental Health Short Stay Unit (FSH Assessment Unit, SCGH MHOA and JH MHOA) should be considered an urgent priority for bed access.
- The expected prioritisation is recommended as follows:

Priority 1: ED referrals

- Community referrals may be re-prioritised (to Priority 1) given the less contained nature of the referral and the potential for this to be a higher risk environment.

RESPONSIBILITY				NATIONAL STANDARDS
First Issued	Sep 2019	Revisions	Jul 2022	National Standards 1, 5, 6
This version	Nov 2022	Revision Due	Nov 2025	
Responsibility of	Co-Directors Mental Health	Endorsed by	DCS/DONM	
Title	Mental Health Patient Flow – Quick Guide (Acute) Guideline			

- Alternative options such as moving the patient in ED to an inpatient bed and then to move the community patient to ED may be considered. Holding the patient in ED and accepting the community patient as a priority may also occur in consultation with the ED.
- Inpatient/Consultation Liaison referrals may be prioritised (to Priority 1) where the referral arises from a time-critical ward (ICU) or where unexpected risks are posed as a result of an admission to a particular ward or environment.

Priority 2: Community referrals/Rural and Remote tertiary care referrals.

Priority 3: Forensic civil patients and Consultation Liaison on medical wards.

Priority 4: Catchment repatriation of a patient.

State-wide Mental Health Patient Flow

- The Mental Health Access and Capacity Escalation State-wide Policy is designed to provide a coordinated response to peaks in bed demand and proactively manage delays in accessing treatment. Refer to [Mental Health Bed Access, Capacity and Escalation State-wide Policy](#).
- The State-wide Access and Capacity Escalation Plan Mental Health Bed Access, Capacity and Escalation State-wide Policy interfaces with each Hospital Access and Capacity Plan/Bed Capacity and Escalation Plan (or similar name) that details the Health Service Provider (HSP) response to mental health demand using the BRAG, a “traffic light” system to indicate the status patients requiring admission or transfer from the hospital EDs, mental health units (MHUs) and community mental health services.
- A Hospital Bed Capacity Status (a hospital centric system) is declared across metropolitan hospitals at least twice per day, by the Nurse Director Patient Flow or delegate at each hospital and may be amended during the day at the discretion of the identified role.

State-wide Mental Health Dashboard

- State-wide status is monitored and confirmed using a near to live dashboard accessible through Mental Health Patient Flow (MHPF) Dashboard Pulse. The dashboard does not take into consideration acuity of the patient or staffing within each HSP and so it therefore cannot be used solely for the basis of escalation.
- Refer to State-wide Mental Health Patient Flow Dashboard.
- The dashboard shows the mental health bed demand and the capacity in each HSP. The data is taken from EBM and the Mental Health BRAG status is derived from this data.
- Staff with appropriate access can drill down to see:
 - * The details of patients and locations that make up the demand in each HSP.
 - * The specific areas within the HSP where the vacant beds are. It does not indicate how many are available beds as the number includes patients who are on leave. It does not identify which beds are already allocated waiting for the patient to arrive.

RESPONSIBILITY				NATIONAL STANDARDS
First Issued	Sep 2019	Revisions	Jul 2022	National Standards 1, 5, 6
This version	Nov 2022	Revision Due	Nov 2025	
Responsibility of	Co-Directors Mental Health	Endorsed by	DCS/DONM	
Title	Mental Health Patient Flow – Quick Guide (Acute) Guideline			

- It also includes youth beds, mother and baby unit beds, and older adult beds which are not all currently identified as such.
- It is important to check with the relevant site bed manager to check the number of available beds

Mental Health ED Breaches > 24-hour reporting

- Mental Health patients that have had a length of episode greater than 24 hours in the respective Hospital ED need to be reported to the Minister weekly.
- The breaches are classified as 'true mental health' and are mental health diagnosis excluding drug and alcohol F10-F19 (the dashboard includes these for reporting).

- The Mental Health Patient Flow Manager is responsible for completing the SMHS Spreadsheet listing one main reason for breach and send to Nurse Director (ND) for approval each Monday.
- After approved by ND, it is sent on to the ED for final approval. Once approved it will be entered into the Dashboard by the Executive Assistant (EA).

- The official state process and dashboard works as follows:
 - * The breach period runs from Monday to Sunday.
 - * Data is run every night and therefore breach reasons can be entered across the week for cases in RGH. Peel ED is not captured on the dashboard and, therefore, data must be collated manually.
 - * All users have access to state-wide data, only enter reasons for the sites that you are allocated. Contact your manager if you are unsure.

Up to 4 breach reasons per case can be entered and **must** be entered in order of occurrence.

- * If only 1 occurred, only enter 1. We only enter one reason.
- * Enter a breach by clicking on the case. Pen down will open, type your HE number and normal password to enter and follow the steps. Repeat for all cases.
- * Please note that only hospital ED sites that had a breach are reported. All EDs are included that use EDIS or webPAS ED.
- * Breach reasons need to be entered by close of business on Tuesday for the previous week.
- * On Wednesday a report summary will be generated, and this is forwarded to the Ministers office. Should the Ministers office require further information they are to contact the HSP directly.

South Metropolitan Mental Health Service Information

Fiona Stanley - Head of service

08.00 MH ward stand up meetings

08:50 09:15 - FSFHG/PaRK Daily Stand Up, via MS teams

- **Referrals in business hours:**
 - * FSH MHA NUM – 6152 8700
 - * FSH MHB (Youth) CNS – 6152 1585
 - * FSH MBU (Mother & Baby) CNS – 6152 1583
- **Referrals after hours:**
- **All referrals** contact HOOT 4 – 6152 7658

Fremantle - Head of service

08.40 MH ward stand up meetings

08:50 - 09:15 FSFHG/PaRK Daily Stand Up, via MS teams

- **Referrals in business hours:**
 - * **Secure bed referrals** (4.1) contact NUM - 0478 331 107
 - * **Open bed referrals** (please check catchment area list):
 - Cockburn (W4.2) contact NUM – 0404 89 0178
 - Fremantle/Melville (5.1) contact NUM – 0481 038 983.
 - * **Older adult referrals** (4.3) contact NUM – 0404 890 416
- **Note:** If difficulty contacting above call (0404 897 605)
- **Referrals after hours:**
 - * All referrals contact After Hours Bed Manager – 0404 890 174

Rockingham - Head of service

- 08:15 - 08.30 RGH Capacity & resourcing/Bed management meeting
- 08.30 – 09.30 Mimidi Ward meeting
- **Referrals in business hours:**
 - * NUM/ CNS – 0408 951 390 / 9599 4939 or page 705
- **Referrals after hours:**
 - * **Adult Ward coordinator** - 9599 4990. If not answering, try: 9599 4952/4957
 - * **Older adult** - 9599 4956
 - * Call the Duty Nurse Manager on 9599 4770 in the General hospital if you can't get the Bed manager in a reasonable time frame and ask them to get the information.
- **Rockingham ED PLN** – 9599 4729
- **Peel ED PLN** – 59836235 (or go through switch 9351 8000)

RESPONSIBILITY				NATIONAL STANDARDS
First Issued	Sep 2019	Revisions	Jul 2022	National Standards 1, 5, 6

Responsibility of	Co-Directors Mental Health	Endorsed by	DCS/DONM	
Title	Mental Health Patient Flow – Quick Guide (Acute) Guideline			

SMHS Mental Health Patient Flow Daily Schedule - when both Coordinators are on shift

- **07:30 – 08:00** Gather bed occupancy stats using iSoft for Mimidi Park. Contact the CNS or Nurse Manager of Mimidi Park (9599 4990) **(0408 951 390)** and request email of 24hr report if not emailed by night staff.
- Collate data on: Beds occupied, beds vacant, leave beds and when patients are returning, 1:1 special per ward as these will be required for state-wide teleconference.
- Check EBM for bed demand. Check MH Dashboard for 'vacant' beds and adjust EBM so the dashboard reflects appropriately the current demand. Ensure Community and Peel ED is entered on EBM.
- Confirm MH pts in FSH ED's with PLN **(9599 4729)**. Need to know:
 - * How many on MHA forms, adult, under 18, over 65.
 - * Which patients have been seen, are for admission.
 - * What type of bed (open/locked) and which catchment.
- **07:30 - 08:00** Phone the Patient Flow Coordinator for SMHS FSH/Fremantle and advise of the numbers as this is reflected in the Bed Availability and demand report collated by the FSH/FH SMHS Mental Health Patient Flow Coordinator.
- **08:00 - 08:15** Prepare snapshot of Dashboard, RGH and Peel ED and EBM for Mimidi am Bed meeting.
- **08:15 - 08:30** - Capacity and resourcing meeting Mon – Fri, via MS teams.
- **08:30 - 08:45** Attend Mimidi park am handover and bed meeting. Highlight state-wide and site BRAG and discuss current demand and availability for beds. Collate number of possible leave/discharges for the day.
- **08:50 - 09:15** FSFHG/PaRK Daily Stand Up, via MS teams.
- **09:15 - 09:30** Phone ED Mental Health Liaison Service for current update of patients and plan. Advise of bed availability.
- **10:00 - 10:30** Attend state-wide Patient Flow Teleconference, via MS teams.
- **10:30 - 13:30** Patient flow: phone calls to Bed Managers, Consultants, ED's/Community teams, GP's, other services, ensure correct documentation reaches sites, lead timely communication, ensure state-wide policy is adhered to and escalate accordingly, liaison with consultants to prioritise admissions, bed allocations accordingly, liaison with ED navigators, and investigate MH breaches.
- **13:30 - 14:30** Get updates from site bed managers re current and expected bed availability and referrals for those beds.
- **14:30 - 14:45** Phone Peel and RGH ED to gauge current demand for beds as per the am.
- **14:45 - 15:00** Gather current bed occupancy stats for each unit, along with availability, booked beds, and bed demand stats for all South Metro sites for teleconference.
- **15:00 - 15:30** Attend state-wide Patient Flow Teleconference, via MS teams.
- **15:30 - 16:00** Complete state-wide bed availability template and distribute by email. Complete any outstanding business for the day.
